Keithcot Farm SunSmart Policy

This policy applies to all school events on and off site.

Purpose

This SunSmart policy provides guidelines to:

- Ensure all students and staff have some UV exposure for vitamin D.
- Ensure all students and staff are well protected from too much UV exposure by using a combination of sun protection measures whenever UV levels reach 3 and above.
- Ensure the outdoor environment is sun safe and provides shade for students and staff.
- Ensure students are encouraged and supported to develop independent sun protection skills.
- Support duty of care requirements
- Support appropriate WHS strategies to minimise UV risk and associated harms for staff and visitors

Background

A balance of ultraviolet radiation (UV) exposure is important for health. Too much of the sun's UV can cause sunburn, skin and eye damage and skin cancer. Exposure to the sun's UV during childhood and adolescence is associated with an increased risk of skin cancer in later life. Too little UV from the sun can lead to low vitamin D levels. Vitamin D is essential for healthy bones and muscles, and for general health.

Procedures

- Staff and students are to access the daily local sun protection times at sunsmart.com.au or on the free SunSmart app to assist with the implementation of this policy.
- A combination of sun protection measures are used for all outdoor activities from **September to the end of April** and whenever UV levels reach 3 and above.

Healthy physical environment

1. Seek shade

- A shade audit is conducted regularly to determine the current availability and quality of shade.
- The availability of shade is considered when planning all other outdoor activities and excursions.
- In consultation with the school council, shade provision is considered in plans for future buildings and grounds.
- Students are encouraged to use available areas of shade when outside.
- Students who do not have appropriate hats or outdoor clothing are asked to play in the shade or a suitable area protected from the sun.

Healthy social environment

2. Slip on sun protective clothing

- Sun protective clothing is included in our school uniform / dress code and sports uniform.

3. Slap on a hat

- All students and staff are required to wear their hats to protect their face, neck and ears, whenever they are outside. Baseball or peak caps and visors are not considered a suitable alternative.

4. Slop on sunscreen

- Students must provide their own SPF 30 or higher broad spectrum, water resistant sunscreen. The school has a limited supply for students who forget to bring their sunscreen.
- Sunscreen is applied at least 20 minutes (where possible) before going outdoors and reapplied every two hours if outdoors.
- Strategies are in place to remind students to apply sunscreen before going outdoors (e.g. reminder notices, sunscreen monitors, sunscreen buddies).

5. Slide on sunglasses [if practical]

- Where practical students and staff are encouraged to wear close fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

Learning and skills

- Programs on skin cancer prevention and vitamin D are included in the curriculum for all year levels.
- SunSmart behaviour is regularly reinforced and promoted to the whole school community.

Engaging children, educators, staff and families

- Staff and families are provided with information on sun protection and vitamin D through family newsletters, noticeboards and the service's website.
- As part of WHS UV risk controls and role-modelling, when the UV is 3 and above staff, families and visitors:
 - wear a sun protective hat, covering clothing and, if practical, sunglasses when outside
 - apply sunscreen
 - seek shade whenever possible

Monitoring and review

- The school council and staff regularly monitor and review the effectiveness of the SunSmart policy (at least once every three years) and revise the policy when required by completing a policy review and membership renewal with SunSmart at sunsmart.com.au.
- SunSmart policy updates and requirements will be made available to staff, families and visitors.
